MATCHING VEHICLES IN THE YARD

Stock #	Year-Model	Row
STK007958	2009 STS	115 BLACK
STK008249	2006 STS	317 GRAY
STK008170	2006 STS	304 BLACK

As shown in the example to the left, the vehicle list that you have been given has the vehicle's row numbers, their stock numbers and colors. Out in our yard, you will find the row numbers marked on the door glass of each car at the end of each row. If you are having trouble locating the car within that row, try looking for the vehicle by its color. Or you can match the stock number shown on the vehicle list with the stock number on either of the two white stickers on the vehicle. One sticker is on the right-side roof and the other is on the left rear quarter panel. A sticker example is shown below.
